Capo: 2nd fret

C# F# C# F#

(verse)
```
C#                                F#
Walkin  along beneath the lights of that miracle mile,
        C#                          F#
Me and Mary makin  our way into the night,
         C#
You can hear the cries from the carnival rides
     F#
The pinball bells and the ski ball slides,
C#                                          F#
Watchin the summer sun fall out of sight
```

(bridge)
```
G#                                F#
There s a warm wind comin  in, from off of the ocean
            C#                                      F#
Makin  it s way past the hotel walls to fill the street,
C#                          F#
Mary is holdin  both of her shoes in her hand
          C#                G#                C#
Said she likes to feel the sand beneath her feet,
```

(chorus)
```
             C#                            F#
And in them mornin  I m leavin  makin my way back to Cleveland,
     C#                                    F#
So tonight I hope, that I will do just fine,
    C#                          F#
And I don t see, how you could ever be,
C#     G#         C#
 anything but mine,
```

(verse chords)
There s a local band playin at the seaside pavillion
And I got just enough cash to get us in
And as we are dancin Mary s wrappin her arms around me
And I can feel the sting of summer on my skin

(bridge chords)
In the midst of the music, I tell her I love her
We both laugh, cause we know it isn t true
Oh, but Mary there s a summer drawin to an end tonight
And there s so much that I long to do to you
