

## Morphine & Chocolate

### 4 Non Blondes

[Intro] **Ab**

**Ab**

Substitute my gloom with happiness

**Db**

Substitute my sickness with health

**Ab**

Substitute my enemies with real good friends

**F#**

Morphine and chocolate are my substitutes

**Ab**

Are my substitutes

**Ab**

Morphine and chocolate can bring me up

**Db**

Can warm my heart for me whenever I want it

**Ab**

And every once in a while when I stop and think

**F#**

Morphine and chocolate are my substitutes

**Ab**

Are my substitutes

**Ab**

And you can say

**Db** **Ab**

Hey, we've really come a long way

**Ab**

And you can say

**Db** **Ab**

Hey, it can only be this way

**F#**

You might be careful

**Ab** **Db**

It really hurts when it's real

**F#**

You might be careful

**Ab** **Db**

It really hurts when it's real

**F#**

You might be careful

**Ab** **Db**

It really hurts when it's real

**F#** **Ab**

You'll go down, down, down

Set the alarm clock, baby

Don't you miss the sun?

**Db**

You know, I'm feeling really warm hearted baby

Don't you know I'm feeling like someone

**Ab**

I'm fearing for my life again

And I am fearing for my heart

**F#**

Morphine and chocolate could never

**Ab**

Substitute my art

And that's real love baby
