Verse:
**Em** **Ab**
These are models of my own design

**A** **Em**
Two circles never meeting

**Ab**
One in 92 and 95

**A** **Em**
And it s all been up to me

**Em** **Ab**
May not listen to my own advice

**A** **Em**
It can be so overwhelming

**Em** **Ab**
There are strains on every double life

**A** **Em**
But you won t hear me complain

Chorus:
**Em** **A**
Yes it s true

```
      B
You knew

        Em
You believed it

                  A
You should just turn

     B     Em
And walk away
```

Verse:
Took a compliment and photograph
Committed it to memory
Model of how not to act
At least not imitate

Wouldn t it have been ideal
If it all fell down from heaven
How am I supposed to feel
When I know what you did wrong

Chorus:
Yes it s true
You knew
You believed it
You should just turn
And walk away

Yes it s true
You knew
I was leaving
We re under the same sky line today
