These are models of my own design

G# **Ebm**
Two circles never meeting

G
One in 92 and 95

G# **Ebm**
And it s all been up to me

Ebm **G**
May not listen to my own advice

G# **Ebm**
It can be so overwhelming

Ebm **G**
There are strains on every double life

G# **Ebm**
But you won t hear me complain

Chorus:
Ebm **G#**
Yes it s true

```
      Bb
You knew

        Ebm
You believed it

                  G#
You should just turn

     Bb     Ebm
And walk away
```

Verse:
Took a compliment and photograph
Committed it to memory
Model of how not to act
At least not imitate

Wouldn t it have been ideal
If it all fell down from heaven
How am I supposed to feel
When I know what you did wrong

Chorus:
Yes it s true
You knew
You believed it
You should just turn
And walk away

Yes it s true
You knew
I was leaving
We re under the same sky line today
