No Can Do
Ladyhawk

Ebm F# C# G#

```
        Ebm             F#                  C#      G#
And now I don t understand how you could be so alone
            C#     F#
You lift me up so high
            C#          G#
Then maybe just let me go
        Ebm             F#             C#         G#
They didn t know they d come, the harder they fall
             C#         F#   C#        G#
Cause I m just another ad upon your wall

Ebm                     Bbm
No one taught me how to pray
                        C#         F#
I had to go and find it out the hard way

         G#        C#             F#
And it s wrong to think that I have those
           C#       G#                Ebm       F#
Oh when he got the word he tried to fuck the fuck up

    Ebm         F#          C#      G#
Oh I ve been around, just had it around
       C#             F#            C#            G#
I let you drive me through the gates that put me down
Ebm         F#          C#      G#
I did my best and I tried to reach up
            C#                F#             C#         G#
Oh well I guess you did my best but you couldn t come no

Ebm                 Bbm
So many say no can do
                                C#       F#
I don t know what I could ve done to lose you

         G#        C#             F#
And it s wrong to think that I have those
           C#       G#                Ebm       F#
Oh when he got the word he tried to fuck the fuck up
```
