Try Me Again
Linda Ronstadt

Try Me Again

```
G                       Em    D    C          G
Well I drove past your house last night and I looked in the window
                     Em Bm   Am7       C                G
Lately I ain t been feeling right and I don t know the cure, no
        D               C  G     Am7   D7           C
Still I can t keep from wondering if I still figure in your life
          Em               Am7
Could you take me back and try me
D7      C   G/B
Try me again
Am7       D7     G
Could you try me again

I drove around in this lonesome town, felt just like a beginner
Friends I saw they just brought me down, they re so cynical and bitter
Well I guess I m just like them now I never thought I d turn out like that
Could you take me back and try me
Try me again
Could you try me again

         B          Em
Well you say that I cheated,
B     G            C
I was not what you needed
                       F#m7  B7
Well you re not being ki-i-ind
         Em                    A7                Am7
When you say you tried and you know you lied, my hands are tied
D7    C      G/B
Woah, try me again

C         G/B           Am7
I m gonna knock on your door
         D7         C                   G/B          Am7
Till you say you ll come back to me and love me some more
Oh oh try me again
Will you try me again
Woah, try me again
```
