Whales Sing
The Shaky Hands

Eb

You were bad but

do you feel it?

And in the hindsight

you don t see it

And it s a shame

you were forsaken

with the traps

set so well hidden
Bb **Eb** **G#**
And I know all whales can sing

Eb
With the shouting

you hold me up again

If you re the highway

I m the pavement

Through back door

from the existing

And all the wind blows

neverending
Bb **Eb** **G#**
And I know all whales can sing

Fm **G#**
Cut all this out
F#dim
We shall not be
F
turning lightly
Fm
into the wind

Bb
and never again

hear the song end
Fm **Eb**
of the ocean

The trip is long but
you will prosper
you re not alone, boy
you have a father
and there s a lesson
they have given
and underwater
I can listen
And I know all whales can sing

There is enough for
when you come down
Into the water
you will hide out
for the changing
of what is sacred
Oh to the father
the hope that he will read it
And I know all whales can sing

Cut all this out
We shall not be
turning lightly
into the wind
and never again
hear the song end
of the ocean

I know all whales can sing
And I know all whales can sing!
