We Made It
Linkin Park

MY FIRST....

It should be really simpleâ€¦
Suggest on putting a little distortion

INTRO: **AM C G D**

I suggest on doing G like This : 32xx33

sounds much better

rest of the song is rap so here is the chours

```
AM            C
Together we made it (you see we did it niggas)
G                                   D
We made it even though we had our backs up against the wall (c mon)
 AM            C
Forever we waited (haha!)
 G                                        D
And they told us we were never going to get it
               AM
but we took it on the road (to the riches)
C
on the road (to the ghetto)
G                D
on the roooooad (in the projects to this bangin instrumental)
AM
on the road (ride with me) *yeah, yeah*
C
on the road (you come and get it) *yeah, yeah*
G               D
on the rooooooad *yeah, yeah, yeah, yo!*
```

Thats about it....
