

## Better Man

### 5 Seconds Of Summer

**Am**                    **C**                                    **G**                                    **F**  
Find me at a quarter to three, cigarette in hand  
**Am**                    **C**                                    **G**                                    **F**  
I d be at every party, I wouldn t miss a chance  
**Am**                    **C**                                    **G**                                    **F**  
New friends again and again, gone when the morning comes  
**Am**                    **C**                                    **G**                                    **F**  
Demons I try to defend, but I couldn t get enough

**Am**                    **C**  
Fading away, fading away  
**G**                                    **F**  
Wake up to someone with nothing to say  
**Am**                                    **C**  
I d never change, thought I d never change  
Then you come and change it all

**Am**                    **C**                                    **G**                                    **F**  
With your love, your love, I m a better, better man  
                  **Am**                    **C**                                    **G**                                    **F**  
With your love, your love, I m a better, better man  
                  **Am**                                    **C**  
Darling, all of my wrongs, they lead me right to you  
**G**                                    **F**  
Wrapped in your arms, I swear I d die for  
                  **Am**                    **C**                                    **G**                                    **F**  
Your love, your love, I m a better, better man

( **Am** **C** **G** **F** )

**Am**                                    **C**  
Thought I d found the highest of highs  
**G**                                    **F**  
You came and topped them all  
**Am**                                    **C**  
You shine in the dead of the night  
**G**                                    **F**  
And I was the first to fall

**Am**                    **C**  
Fading away, fading away  
**G**                                    **F**  
Wake up to someone with nothing to say  
**C**                                    **Em**  
I d never change, thought I d never change  
**G**                                    **Am**  
Then you come and change it all

**Am C G F**  
 With your love, your love, I m a better, better man  
**Am C G F**  
 With your love, your love, I m a better, better man  
**Am C**  
 Darling, all of my wrongs, they lead me right to you  
**G F**  
 Wrapped in your arms, I swear I d die for  
**Am C G F**  
 Your love, your love, I m a better, better man  
  
 ( **Am C G F** )  
 ( **Am C G F** )

**Am G F**  
 You re the only one, who could lock this wild heart up in chains  
**Am G F**  
 You re the only love, that can make this bad man better  
**C Em G Am**  
 You re the only one, who could lock this wild heart up in chains  
**C Em G Am**  
 You re the only love, that can make this bad man better

**C Em G Am**  
 With your love, your love, I m a better, better man  
**C Em G Am**  
 With your love, your love, I m a better, better man  
**C Em**  
 All of my wrongs, they lead me right to you  
**G Am**  
 Wrapped in your arms, I swear I d die for  
**C Em**  
 Your love, your love, I m a better, better man

**Am C G F**  
 With your love, your love, I m a better, better man  
**Am C G F**  
 With your love, your love, I m a better, better man  
**Am C**  
 Darling, all of my wrongs, they lead me right to you  
**G F**  
 Wrapped in your arms, I swear I d die for  
**Am C G F**  
 Your love, your love, I m a better, better man  
  
 ( **Am C G F Am C** )

**G F**  
 I m a better, better man

( **Am C G F Am C** )

**G F**

I m a better, better man
