I came across this song on youtube watching the new Hives video for Tick Tick Boom.
Instantly loved it. Really simple to play. Here s the basic jist of it.
You need a nice fuzzy electronicy sound for parts, work out the effects for yourself its more fun that way.

```
e|-------------------------------------------------------------------------|
B|-------------------------------------------------------------------------|
G|-------------------------------------------------------------------------|
D|---------x-x-3---5b6b5--3----------x-x-3---5b6b5--3----------------------|
A|----5-5-----------------------5-5----------------------------------------|
E|-------------------------------------------------------------------------|
```

Or in parts it s more

```
e|-------------------------------------------------------------------------|
B|-------------------------------------------------------------------------|
G|-------------------------------------------------------------------------|
D|----------3---5-6-5--3--------------3---5-6-5--3-------------------------|
A|----5-----------------------5-------------------------------------------|
E|-------------------------------------------------------------------------|
```

Thats BASICLY it.

Those high pitched squealy notes are just D notes by the way.
