Hardly Hurts At All
Maria Arredondo

Maria Arredondo - Hardly Hurts at All

* This is my first, so there can be some mistakes, but it sounds about right to me *

```
H                                D              E
It s my first summer since you told me that we re over
H                               D      E
It s my first summer since you went away
H                                D             E
But don t go thinking there s a chip upon my shoulder
H                       D
Cos I assure you everythings OK
     E
As I m sittin  on top of the world

H                 E
Cos I m just going crazy
            D           E
I m just climbing up the wall
         H             E
I just cry myself to sleep at night
           D            E
wondering why you never call
          H                 E
You were only all I dreamed of
         D           E
and the only one I want
    F#m              E
So why should I feel bad about it
D        E            H
no it hardly hurts at all

H                          D
Each time I see you I get shivers
        E
and my hand shake
H                          D      E
And everytime I feel like such a fool
H                         D
But don t you worry if I stumble and
     E
my voice breaks
```

```
H                            D
Cos I assure you everything is cool
            E
as I m sittin  on top of the world

H                 E
Cos I m just going crazy
            D           E
I m just climbing up the wall
         H             E
I just cry myself to sleep at night
           D            E
wondering why you never call
          H                 E
You were only all I dreamed of
         D           E
and the only one I want
    F#m              E
So why should I feel bad about it
D        E            H
no it hardly hurts at all

C                        G#
Maybe someday you will know what i mean
       D                 H
Yeah, you may even fall apart
C                          Hm
Maybe you ll know how it feels when
                  H       B
someone tears it apart, apart

B             F#
I m just going crazy
           E             F#
I m just climbing up the wall
B                     F#
I just cry myself to sleep at night
            E            F#
 wondering why you never call
         B                F#
You were only all I dreamed of
         E          F#
and the only one I want
      G#                F#      E
So why should i feel bad about it
       F#             B
no it hardly hurts at al
```
