Put Your Hands Up
Matchbox Twenty

```
Bm                  D
You re wide awake, your heart beats
A                   G
Sister Mary in her burning dress with god at her feet
Bm                   D
They take and take, but no more
A                       G                                  Em
Cause now you re gonna show em what the night is really for
               G
And leave your heart out on the dance floor

Bm                  D
Put your hands up, it s all right
A                      G
Saying  oh ho oh oh , until the sunrise
Bm                       D
And if you can t sleep, do it all night
A                      G
Saying  oh ho oh oh , and don t you ever fade away

Bm                  D
Your life is full, of hard days
A                   G
You try to hold it down but it s more than you can take
Bm                      D
Those flashing lights, they shine down
A                            Em
It s hard as hell to try to keep your head in this town

G
So we re gonna burn the place down

Bm                  D
Put your hands up, it s all right
A                      G
Saying  oh ho oh oh , until the sunrise
Bm                       D
And if you can t sleep, do it all night
A                      G
Saying  oh ho oh oh , and don t you ever fade away
```

(**Bm D A G**)
