This song is VERY simple to play. It only uses 4 chords which are:
Em, **G**, **D**, **A**
In that order
Here we go:

Hit Em s 2 first strings softly the first time around on intro
Intro: **Em**, **G**, **D**, **A** x2

```
Em               G
Here I am alone again tonight
            D        A
Talkin  to myself again

Em                       G
Lately I ve been seeing less of you
            D             A
Whats a man to do?

A                          Em   G
I understand that you ve been busy
G                               D  A
I understand there s not much time
A              Em            G
You ve got the best intentions
G              D
Every single time
```

And so it continues like the the entire song except you have
to strum soflty or hit the strings with your fingers when it
comes to the soft part in the middle.
