Let It Go
Mickey Newbury

Let It Go

```
        G#                      Bbm
Leave a candle burnin  ever low
         Eb                          G#
Don t be moved by every wind that blows
          G#7                         C#
Save your cryin  for the picture shows
    G#                  Eb             G#
And give your love to one you truly know

G#                                          Bbm
Yes I know, it always hurts to say goodbye
          Eb                          G#
So it s alright now if you need to cry
     G#7    C#
Ummm Ummm Ummm
     G#                 Eb                 G#
Then shake that rusty chain and let it go

Chorus:
           G#                      Eb
Oh, let it go now, let it flow unchained
                                  G#
All your feelin  is a cleansin  rain
    G#7  C#
Umm Umm Umm
G#                 Eb                 G#
Shake that rusty chain and let it go

There s a candle burning ever low
Don t be fooled by every wind that blows
Save your crying for the picture shows
Shake that rusty chain and let it go

You can make it day to day
You are broken only if you break
Save the good times throw the rest away
Shake that rusty chain and let it go

Chorus
```
