The Muse

VERSE 1
```
F#m                 A          E               A
The snake is in its cage and the monkey s off my back
F#m               A          E                    A
The rash is in recession and the checkbook s in the black
D                                                  E
She still comes around though I thought she would be gone
      A                       D
She comes with the darkness and dies with the dawn
       E            F#m
The night s as lonely as the day is long
D                                E
God s ugliest children can find beauty in a song
```

CHORUS
```
A                        D
Dying to defy that we are born and bred to lose
     E                    D             A
It s belted out in bubblegum, bellowed in the blues
```

VERSE 2
She s got a great big mouth and a cold and shallow heart
She whisper s while I m sleeping nothing will tear us apart
If I can t get rid of her I guess we ll get along
She comes with the darkness and dies with the dawn
The night s as lonely as the day is long
God s ugliest children can find beauty in a song

VERSE 3
Some say if she don t kill ya she ll only make you strong
Some say she s inspiration for another song

I m just glad that she don t hang around all day long

She comes with the darkness and dies with the dawn

The night s as lonely as the day is long
God s ugliest children can find beauty in a song
