Without you why does it feel so wrong?
Without you why does it feel so long?
Without you I just can t get through
Tell me do you feel it too?

Chorus;
```
A             E               B             F#
Everyday that passes by, we slowly fade away
A                      E                    B              F#
Because I know that I can t be with you, every single day
     A                 E                 B                F#
We laugh and cry but now s the time for us to say good-bye
      A           E           B               F#
It s gonna be so hard but I know I ve got to try
