Wish I Could
Miss Montreal

Miss Montreal - Wish I Could
Capo 1

```
Em                              C         Em
So the moon is there, I see it sometimes far, so far away
C                 Em                  B                      C
I ve been waiting for so long, I gotta stop, stop, stop, stop waiting

C                            Em      G              D
Now my heart still beats for anyone, feeling like I never should
       C
Ooh, I wish I could
C                            Em      G              D
Now my heart still beats for anyone, feeling like I never should
       C             B
Ooh, I wish I could, wish I could

Em                            C       Em
Now I feel it close, I see it clearly and I will close my eyes
C                Em                 B                      C
If this is all I g-g-get, I m gonna stop, stop, stop, stop waiting

C                            Em      G              D
Now my heart still beats for anyone, feeling like I never should
       C
Ooh, I wish I could
C                            Em      G              D
Now my heart still beats for anyone, feeling like I never should
       C             B
Ooh, I wish I could, wish I could

C                                   Em
I have been holding back too long, get it on before it s gone
D                       Em
Can you hear it beating, get it on before it s gone
C                                   D
I have been holding back too long, get it on before it s...
C
I can feel, feel you

C                            Em      G              D
Now my heart still beats for anyone, feeling like I never should
       C
Ooh, I wish I could
C                            Em      G              D
Now my heart still beats for anyone, feeling like I never should
       C
```

Ooh, I wish I could, wish I could

C **Em** **G** **D**

Now my heart still beats for anyone, feeling like I never should

C

Ooh, I wish I could, wish I could

C **Em** **G** **D**

Now my heart still beats for anyone, feeling like I never should

C **B**

Ooh, I wish I could, wish I could
