The tune is pretty much like this :

```
-----------------------------------------------|
-----------------------------------------------|
---5---5---4-------AND (chug chug chuggin )-:-------|
--------------5------------------2----------------|
-5---3---3----------------5---5---0---------------|
-------------5-----------3---2--------------------|

Main riff                    Memory...  chorus
```

deschooling grind breeds unrest
adult children get depressed
transparent self will always fail
archaic man leaves a trail
subhuman rubbed in parading eyes
libido pastures and the drug-nose highs
horns and hooves quest for death
existential vacuum becomes a rest

memory s lost to pride

puppets all take up slack
single minds won t give it back
unconscious god broadcast fraud
selfish goals defer the cost
tribal order suicide
super-ego suckling genocide
blame your parents broken image
blame the counter-culture
and the global village

memory s lost to pride

Solo

Freud was wrong he told a lie
it was child abuse and Oedipus should die
he milked the brain s trance-like state
blame your parents

memory s lost to pride

P.S. I could tab Ocean Pearl if anyone s interested.
