September Days
Modern Skirts

I had a hard time trying to get the chords to line up with the lyrics like i wanted, but
basically its just
D----/**A**----/**Em**----/---- enjoy.

The little riff played after the Em is something like:

```
e---------------------------------------------|
B---------------------------------------------|
G---------------------------------------------|
D---2/4---2p0---0---2/4---4------------------|
A---------------------------------------------|
E---------------------------------------------|
```

D **A** **Em**
September days are the nicest days of the years.
D **A** **Em**
Everything changes and green turns to brown in your eyes.
D **A** **Em**
Anticipating anxiety and disbelief.
D **A** **Em**
September days are the nicest days of the years.

D **A** **Em**
I ve been painting the windows of your hotel.
D **A** **Em**
The sidewalks are straining to catch me and keep me the night.
D **A** **Em**
Anticipating the shadows changing, week by week.
D **A** **Em**
I ve been painting the windows of your hotel.

Em **D**
All along the streets are strangers filing into town
G
but you and I must save a place for shadows on the ground.

D **A** **Em**
September days are the nicest days of the year.
