Get Back To The Country
Neil Young

(**B**)
When I was a younger man

Got lucky with a rock n roll band

Struck gold in Hollywood

All that time I knew I would

Refrão:

Get back to the country
A E B
Back where it all began
F#
Get back to the country
A E B
Back in the barn again.

Now when we hit the road
Big buses and trucks unload
After the curtain falls
Load up and then we all

F#
Get back to the country
A E B
Back where it all began

F#
Get back to the country
A E B
Back on the road again.
