               G                      C
Well I m just waiting for my chance to come
        G                     C
Just a silhouette against the rising sun
          G                  Em
Watch the water, watch the sky
         G                Am
Count the days as they go by
         C               D          G
I m just waiting for my chance to come

          G                   C
Well it takes real guts to be alone
         G                  C
Going head to head with the great unknown
          G             Em             G               Am
But there is no sweeter sound, on the kings round I m bound
          C               D           G
And just waiting for your chance to come

           Em             G                 D                 C
 Cause it s hard to feel like, you re worth something in this life
           Em              G           D           C
When you re walking next to me, I can hear my body speak
           C              D        G
We re just waiting for a chance to come
           C              D        G
We re just waiting for a chance to come
```

When I close my eyes its all I see
         G                Em
Among the canyons and the stars
           G               Am
You re the guide inside my heart
         C              D         G

        G             Em              G                    Am
Take a gamble on your heart, it will lead you through the dark

You re just waiting for your chance to come

           Em             G                  D                  C

           Em              G           D           C
When you re walking next to me, I can hear my body speak

We re just waiting for a chance to come
           C              D        G

And no one s gunna get in my way
       Em                 G
Gonna figure it out for myself
       C                    G
Yeah no one s gonna make me stay
       Em                   G
