Lost And Found
Ola Podrida

```
            C                          G
The car crashed but everybody was okay
            F                              G
But that don t mean we re gonna have to stay
      C                                 G
So c mon, I m ready to go when you re done
        F                          G
Let s trash this place before we run
     F                C
And if we both fall down
     F                     G
Another train will come around
    F                 G                C     G
Packed with others getting lost and found

    C                                  G
By now we re finishing each other s thoughts
           F                            G
Everyone else seems to want what we ve got
         C                  G
But I m not afraid to say goodbye
     F                                 G
As long as someone else has caught my eye
    F          C    F                 G
Everyone s a dove when they fall in love
      F         C            G
The roses cover up the old debris
   F                 G
Keeping their eyes down
  C                            F
Until they can t ignore the sound
                      G               C      G
Of all the others getting lost and found

Instrumantal :C G F C G
              C G F G C

     F                  C
We all have hearts so pure
     F                  G
But some hearts can t endure
        F        C               G
The iridescent light of folly s lure
     F              G
We give in to the sound
         C                  F
```

Of that old train coming round
F **G** **C**
Packed with others getting lost and found

Ending : **F G C**
