1 Plus 1
Owl Eyes

http://www.owleyes.com.au/

I dont know the chords for the bridge, apologies.

Verse 1:
```
B                            C#m
Blue colours, no other could mess this up
B                                      C#m
Im thinking while youre drinking, Ive had enough
    B                         C#m
It rains on and on through the winter nights
B                                    E
Change is coming; oh, Ive heard it so many times
```

Chorus:
```
     C#m                  E
Its one plus one equals you and me darling
F#
So damn simple but we complicate it
   C#m     E              F#
I know, I know, I know, I know
C#m                  E
Theres no one like you and me darling
F#
Should be simple but we complicate it
   C#m     E               F#
I know, I know, I know, I know
```

Verse 2:
```
B                                      C#m
Past midnight is when we fight but Im holding on
B                       C#m
So boring, he is snoring on and on
   B                                   C#m
Do you remember when we first met? It felt so young
    B                                      E
Now time is passing that everlasting, weve come undone
```

CHORUS

Bridge:
Rain through my window

And all that I see when I look to the street

I find you standing covered in

Rain through my window

And all that I see when I look to the street

I find you waiting, waiting

CHORUS
