Capo 1

[Intro]
C F X3

[Verse 1]
```
                 C           F                  C
Heâ€™s the deflated balloon wrapped around your gait
 F                    C                   G
Cut priced to clear a past to â€œsell by a dateâ€•
          C                          F            Am                     G
Heâ€™ll be fool running through the church screaming out â€œitâ€™s not too
lateâ€•
         G                          C
When he does, I know that youâ€™ll wait
```

[Verse 2]
```
           C                  F                    C
Heâ€™s the drunk man with bad breath coming on too strong
           F                  C                  G
Heâ€™s the beauty queen that strings your heart along
             C             F               Am              G
And heâ€™ll answer every question in your new-age magazine wrong
        G                 C
But I know you love him strong
```

[Chorus]
```
          F                                  C
So Iâ€™m leaving before thereâ€™s nothing to believe in
           G                          C
Iâ€™m just craving for a love I never knew
  F
Please donâ€™t go misreading me
           C
Iâ€™m not saying youâ€™ve been misleading me
            G            F               C
Just not needing me the way that I need you
```

C FX3

[Verse 3]
```
            C              F                C
Heâ€™s the elephant in the room that never speaks
          F                C         G
```

But you dream about him every two weeks
(*=Strum Once)
C F G Am
I wouldnâ€™t know his name, but you call it in your sleep

Oh I know you love him deep

[Bridge]

So run back to him like you should
F C G
I guess I always knew that you would
C F Am F (Hold)
For heâ€™s captured your heart in a way I never could
G C
So go on and love him good

[Chorus 2]
F C
So Iâ€™m leaving before thereâ€™s nothing to believe in
G C
Iâ€™m just craving for a love I never knew
F
Youâ€™re the book I canâ€™t stop reading
C
Iâ€™m the stray cat you keep feeding
G F C
But the tides, they are receding that itâ€™s true
F
So please donâ€™t go misreading me
C
Iâ€™m not saying youâ€™ve been misleading me,
G F Am CMaj7 G
Just not needing me the way that I need you
C F C
Just not needing me the way that I need you
