Without You
Pixie Lott

Capo on 1st Fret :)

```
Am                C
I know you cant stay,
                 Em
So I wont keep waiting,
           G
Anticipating for the fall
Am               C
We had our time baby
                Em
So I wont keep waiting,
           G
Anticipating for the fall
Am                                          C
Turn it up, turn it up for the people that say
                                   Em
we re moving on and we ll be ok
                                            G
Turn it up, turn it up for the people that say

we re moving on and we ll be ok.
```

Follow Am, C, Em and G all the way through :)
..(i know its not right but its how i like to play it)
