Im On Your Side
Powderfinger

I did this in an afternoon and since there seems to be nowhere with full lyrics or
chords I have been making educated guesses except when obvious.

Chords used (in order of appearance): **G Am C D Em F#m**-(Not diatonic) **Bm**

G
Youâ€™re moving through me like a ghost
G
Youâ€™re the treasure I want most
G
Youâ€™re the feathers on the dove on the pole
Am **C**
Flies around, around, around my soul

D **C**
If I believed that I could help carry pain away from you
D **C**
I d put my shoulder underneath anyway you want me to

G **D**
When you need to buckle and bend
Am **C**
You can call on me to help you forget
D **C** **G** **D**
Hey, Iâ€™m on your side and youâ€™re better than that you know

G **Am** **C** **Em**
Iâ€™ve been waiting here for you so long
G **Am** **C** **Em**
So I could give my love to you, Iâ€™ve had to break someone

D **C**
If I believed that I could help carry pain away from you
D **C**
I d put my shoulder underneath anyway you want me to

```

        Bm                D
Now the rose pink kiss left on your cheek,
         C               G
Marks the mournfulness of distant things
       Bm                D
Itâ€™s a pain, the biggest part of belief.
     C
Now I rush to your relief,

              G            C
- and I wonâ€™t Let you down
        G            C
