I saw her today, I saw her face
                    Em
It was the face of love, and I knew
               G
I had to run away
                                Em
And get down on my knees and pray, that they go away

And still it begins,

G               Em
needles and pins
G               Em  (Esta parte junto com solo 1)
needles and pins

                    C                         D
Because of all my pride, the tears I gotta hide
                         G
Oh I thought I was smart, I stole her heart
                    Em
I didn t think I d do, but now I see
                             G
She s worth to him than me, let her go ahead
                  Em
Take his love instead, and one day she will see
                      G                         Em
Just how to say please, and get down on her knees

                      C                                 D
Oh that s how it begins, she ll feel those needle and pins
Hurtin  her, hurtin  her

   B                                    A
   Why can t stop, and tell myself I m wrong, I m wrong, so wrong
   G                                          F#
   Why can t I stand up, and tell myself I m strong
