Evermore
A Bela e a Fera

Intro: **Fm   D#   D#   Fm   Fm   D#   C#**

```
  G#                    D#       G#
   I was the one who had it all
  G#            D#    G#      C#
   I was the master of my fate
  C#               G#  D#         G#
   I never needed anybody in my life
  C#              G#        D#
   I learned the truth too late
```

```
  G#                    D#       G#      (G#   D#)
   I ll never shake away the pain
  G#            D#    G#         C#
   I close my eyes but she s still there
  C#               G#  D#         G#
   I let her steal into my melancholy heart
  C#               G#       D#
   It s more than I can bear
```

```
       C#                   G#
Now I know she ll never leave me
      C#          G#
Even as she runs away
C#                 D#       Fm         D#
She will still torment me, calm me, hurt me
C#                 D#
Move me, come what may
```

```
C#          D#           G#
Wasting in my lonely tower
C#              D#      Fm
Waiting by an open door
Fm                              G#
I ll fool myself she ll walk right in
C#          D#           G#
 And be with me for evermore
```

```
B                    F#        B
 I rage against the trials of love
B            F#     B         E
 I curse the fading of the light
E               B           F#          B
 Though she s already flown so far beyond my reach
E           B       F#
 She s never out of sight
```

```
     E                          B
Now I know she ll never leave me
     E                      B
Even as she fades from view
E                      F#       G#m   F#
She will still inspire me, be a part of
E                   F#
Everything I do

E                  F#       B
Wasting in my lonely tower
E                     F#   G#m
Waiting by an open door
B           F#                     B
I ll fool myself she ll walk right in
B           F#                   G#m
And as the long, long nights begin
G#m                F#                   B
I ll think of all that might have been
           E         F#     B
Waiting here for ever_more!
```
