Always
Rilo Kiley

I m a novice guitar player, but these chords all sounded right. They may not be placed
precisely in the lyrics where they re supposed to be, but they re very close at the
worst. You can figure where they go by ear when playing anyways.

RIP Rilo Kiley. Or better yet come back from the dead.

Just in case I got the chord names wrong:
Cmaj7: 032000 (it may be x32000 actually)
C7: 032310 (x32310?)
Fm: 133111

Intro (yes the entirety of the first 1:47 intro is C)
