Born On The Wind
Roy Orbison

```
F            Dm    F            Dm
Born on the wind, Born on the wind
  G#                        C
Between the sunset and the dawn
   F     G       F   G
So tenderly your memory
F            G            E7
Lingers with me all night long

Born on the wind, Born on the wind
G#                      C
You are filling me with grief
  F       G       F       G
A love to live, a love to give
F            G          E7
And you will live in my dreams

E                          F              G     F         E
You don t love me, but you love for me to be in love with you.
E                       F              G    F        E
You let me on, lured me on, but when I fell you were gone

Born on the wind, Born on the wind
Now a song in my heart
A soft refrain you will remain
To live in my heart again

Born on the wind, Born on the wind
Bb    C      F
Born on the wind
```
