My Prayer
Roy Orbison

```
Am                        Dm E                              Dm Am
When the twilight is gone  and no songbirds are singing
Am                        Dm E                          Dm Am
When the twilight is gone   you come into my heart
    C          G              Em           A
And here in my heart you will stay while I pray

A                            Cdim  (xx3434)
My prayer is to linger with you
                  Dm                      A    E
At the end of the day in a dream that?s divine
                           Cdim
My prayer is a rapture in blue
                    Dm  E                       A   Dm  A  A7
With the world far away and your lips close to mine

  Dm                           Am
Tonight while our hearts are aglow
   Gdim                                     E
Oh tell me the words that I?m longing to know

My prayer and the answer you give
                      Dm                     A    C#m
May they still be the same for as long as we live
                      D   C#m   (n.c.)        Dm   A
That you?ll always be there at the end of my prayer
