Six Degrees
Scouting for Girls

Intro: **C G** x3

```
             C
Theres only six degrees
        G
Between you and me
          Am
No matter where you are
          F
No matter how far.

      C
Seven billion souls
            G
Spread from Pole to Pole
         Am
From the city to slum
      F
Yet I only need one.

            C
So when you went away
     G
Everything just changed
       Am
Six degrees apart
           F
With out a place to start

    C                    G                            Am
Im putting on a brave face, even though Im falling apart
                          F                                    C
Im putting on a brave face, its not a lot but at least its a start.
                         G                                  Am
They say that Im a lost case, and Im losing myself in the dark,
                             F                                      C
But Im putting on a brave face, its not a lot but at least its a start.

             C
Theres only six degrees
        G
Between you and me
          Am
And were on the same path
         F
```

You just got a head start.

```
              C
But no matter where you run
             G
Well always share the same sun
        Am
Cuz the air you breathe
          F
Was maybe once in me.

    C                    G                             Am
Im putting on a brave face, even though Im falling apart
                          F                                      C
Im putting on a brave face, its not a lot but at least its a start.
                         G                                   Am
They say that Im a lost case, and Im losing myself in the dark,
                              F                                       C
But Im putting on a brave face, its not a lot but at least its a start.
