Intro: **A**â€“**G**-F(x2)

```
F
Long road,
   A         G                 F
Of premature decisions leaving me, cold
     A          G
With only good intentions
        F
But itâ€™s you, who
A              G
Takes my pain away
              F
You know itâ€™s you, who
A              G
Makes me wide awake
              F
You know itâ€™s you,
               G-A-G-F
You know itâ€™s you

        G
This is our time to run away
     Gm
Itâ€™s our time we donâ€™t have to stay here
   F                                        G
Cause all the things that I never knew that I wanted

Are here with you
        G
This is our time to forget the past
     Gm
Itâ€™s our time we could make it last
    F                                       G
Cause all the things that I never knew that I wanted
  F    A
Are here with you
G            F     A     G
Are here with you

  F
A long day
```

```
A                 G           F
Stopping me from saying want I want to say

 A               G
I wish I could do better
         F
But itâ€™s you, who
A              G
Fills me up inside
             F
You know itâ€™s you, who
A                 G
Makes me feel alive
     F
You know itâ€™s you
               G-A-G-F
You know itâ€™s you

        G
This is our time to run away
     Gm
Itâ€™s our time we donâ€™t have to stay here
    F                                        G
Cause all the things that I never knew that I wanted

Are here with you
        G
This is our time to forget the past
     Gm
Itâ€™s our time we could make it last
    F                                        G
Cause all the things that I never knew that I wanted

Are here with you

   A
So tell me
       G
Do you want what I want
    F
I am listening

And I am listening
     A           G
I am listeningâ€¦â€¦
```
