Cast Some Spells - by She Likes To Wrestle
(transcribed by OJ Turner)

E G E G
You make most weird sounds, and you re shaking in my bed,
E G E G
You re talking and I hear but I don t know what you ve just said.
E G E G
I try but my sentence is just crumbling into bits,
E G E G
I gave you nothing, dear, and in return you gave me fits.

Chorus:
G B E
When you re sitting here and nothing seems quite rational,
G B E
And then you cast some spells, and anything seems possible.

2nd Verse (same chords as 1st verse)
There s nothing there anymore, but I still let you in my bed,
You cling and you become my skin, but its something that I must shed.
I know it will be crushing but it is something that I must do:
To kill the verisimilitude of this sham thats love for two.

Chorus
Instrumental Chords: **C**, **Bb** x8

Chorus x2

There you go. Now you can all rock to SLTW! Come on lads!
