When Im With You
Sheriff

Great 80 s tune (standard tuning Acoustic sounds great here and the ladies just love it..)

Lyrics by Sheriff

When I m with You

```
G                       C   D               G
I never needed love like I need you
                                C           D
And I never lived for nobody, but I live for you
C         D       G       BM              C                         D
Oooh, babe, lost in love is what I feel when I m with you
G                       C   D               G
Maybe it s the way you touch me with the warmth of a sun
                                C           D
Maybe it s the way you smile, I come all undone
C         D       G       BM              C                         D
Oooh, babe, lost in love is that I feel when I m with you

G  C D    C                       G                    D
Baby, oh I get chills when I m with you
G  C D    C                       G
Baby, my world stands still when I m with you
N/Bb
When I m with you
```

I never cared for nobody like I care for you
And I never wanted to share the things I want to share with you
Oooh, babe, lost in love is what I feel when I m with you

Baby, oh I get chills when I m with you
Baby, my world stands still when I m with you
When I m with you

Baby, oh I get chills when I m with you
Baby, my world stands still when I m with you
When I m with you
When I m with you
When I m with you...
