Intro: **Am- D- G- Em- Am- D- G- Em**

```
m                                G-  Em
We may not have a mansion on a hill
Am                    D          G- Bm
Mink coats and diamonds by the score
           Em              Am               Bm   B7
But the things we have, no man could ever take it
           Em             Am                   Dsus
Just the two of us, now who could ask for more

D7                                    G Bm, Em
We may not have a thing to stash away
Am          D                  G-    Bm
No one knows what tomorrow brings
         Em                  Am            Bm- B7
But as long as I have you, there s no mistaking
         Em                  Am       Dsus - D7
That the world is ours to do most anything

(Chorus)
        Eb               Dm     Cm
Baby, just as long as we have love
                      Dm             Eb
two shoulders we can lean on if we fall
      Eb                Dm       Cm7
Baby just as long as we have love
              F-   D7
we ll have it all

(DO CHORDS ON 1ST STANZA)
We may not have a change of clothes to wear
The price of love is all we pay
We can show the world when two hearts beat together
We don t even need to know the time of day

(DO CHORDS ON 2ND STANZA)
Let other people keep their wealth and fame
Fine clothes and fancy diamond rings
There s no price to pay for treasures felt between us
We can share the world  cause we have everything
```

Repeat chorus
