INTRO

| **Hm** | **A** | **Hm** | **A** |

VERSE

```
Hm                          A
So many darkened days have passed
B                                   Hm
So many lonely nights I ve had to last
Hm                          A
Distance to light and happiness
      B                                 Hm
Feels infinite, I couldn t joy in this less

E          B          F#m
Closing my eyes I can see your face
E                  B              G#7
But the feeling of warmth is long gone
```

CHORUS

```
        G#m                             Hm
I would fly, leave this solitude far behind
F#                            B  F#/G#
Hold you eternally close to mine
      G#m                                   Hm
Get away from these million nights of winter
  Eb        Eb/G    E  F#  G#m
I would, if I only could
```

VERSE

```
Hm                          A
Trying to cope with how it is
     B                                      Hm
 Til one day I ll feel joy and nothing of this
               Hm                           A
Though with my mind that is frozen by this cold
      B                             Hm
I can still recall what you are to hold

E          B          F#m
I close my eyes and I wait for when
E              B             G#7
The feeling of warmth will return
```

CHORUS

```
        G#m                              Hm
I would fly, leave this solitude far behind

Get away from these million nights of winter
