Verse:
And maybe we¹re just kids who¹ve grown, and maybe not,
And maybe when we¹re on our own, we don¹t have much,
But oh, we are young and not tired of it,Oh, we are young and easily lead,
Oh, with all the kids getting out of their heads.
Chorus:
Oh, Class A., Class B., is that the only chemistry?
Oh, Class A., Class B., is that the only chemistry between us?
Verse:
And maybe we¹re just Streatham trash, and maybe not,
And maybe we¹re just capital flash in a stupid love,
But oh, we are young and not tired of it,Oh we are young and easily lead,
Oh, by all the kids getting out of our heads.
Chorus:
Oh, Class A., Class B., is that the only chemistry?
Oh, Class A., Class B., is that the only chemistry between us?
