Tabbed by: Krista

Tuning: dAGDAD (high to low) with a capo on first.

First of all, I d just like to let everyone know this is my first real tab... I m only
with chords, so if this isn t the best, forgive me! Obviously it won t perfect, no can
every note in the right place, but I tried. Let me know if you any errors.

I know how I set it up might seem kind of confusing - but if I had put everything in,
be incredibly long! So hopefully this works out.

Verse 1:

I?m sitting here frozen in this bed I made
Considering the weight of the bricks I laid now that I?m through
One by one sealed every crack that I could slip between to find my way back
Find my way back home to you

Pre-Chorus:

And I?m burning all my bridges
with these matches I light
To illuminate my path to what is right
And even if it?s true what they say
that you can?t go back home
once you?ve cast it away
I would still have left tonight

Chorus:

You know baby I would be with you if I could
To trade my flesh for your bones
I would, I would, I would, I would, I would?

You know baby I would be with you if I could

To trade my flesh for your bones
I would, I would, I would, I would, I would?

Verse 2:

I carry with me on my way
All the ghosts of all the love
that I let slip away
The heavy weight of promises made
That if I could exonerate
I might just lift off today

[Pre-Chorus]

[Chorus]

Verse 3:

I chased your memory from my mind
But every song I write is just a wish to find you, near or far
Through all the tears and all the time
That I been running blind
I still ain?t got to where you are

[Pre-Chorus]

[Chorus]

Outro:

You know baby I would be with you if I could
To trade my flesh for your bones
I would, I would, I would, I would, I would?

I would, I would, I would, I would, I would
I would, I would, I would, I would, I would, I would
