The Bangles

(intro) **F#m D E**

```
        F#m         D              E
Out my window the rain starts to fall
         F#m                   D      E
And the wind blows through an empty hall
        F#m            D           E
In the mirror, oo reflections of you
A                  B7
In the distance i hear a sound
A                    C#7
Is that you coming around?

(chorus)
F#m              D              E
(what you gonna do)
             oh what you gonna do
F#m                 D                E
(i think i should)
                   i think i should be with you
F#m                     D              E      F#m
(a love thats over due)
                    a love thats over due
    D                E         F#m
Ohh i think i should be with you

           F#m             D       E
Thought i saw you in a strangers face
          F#m                    D     E
Should i call you, or should i walk away
           F#m         D         E
Round the corner is around the world
A                        B7
Is that you looking at me
A                      C#7
Or am i living a dream?

(chorus)
