Minnesota Moon
The Big Wu

Minnesota Moon

CHORUS:

```
                            Eb
Look who just walked in the door
                          F
We ve all seen your face before
                            G#
It s time to settle up the score
                        Bb
Keep those promises you swore
                            Eb
Look who just walked in the door
```

VERSE:

```
          Eb
Well, you moved to Colorado

Thought the whole damn world would follow
                                          G#
But your troubles were the only thing that did
     Cm
In a suitcase full of lonely
  Bb                                  G#      G#-G-F#-F
A longing for the good ol  times was here
F
But now you re back again

And it looks like you found a friend
                                     Bb
I just bought the bottle for your kid
```

CHORUS

REPEAT VERSE CHORDS:
You went and dropped the anchor
You were hired as a banker
And you got yourself a home up in the hills
But thunder on the prairie was the only remedy for your ills

But now you re back again
And it looks like you found a friend
My pocketbook is loaded to the gills

JAM JAM JAM (Just repeat Chorus progression)

End Jam w:

Eb F F# G

```
                                          F#    G
Driving through through the midnight rain
                                          F#    G
Driving through through the midnight rain

Driving through through the midnight rain
G--F#--G--G#
Raaaaaaaaaainnnnnnnn
                    Eb    F
Travelin ooooooon
     Bb
Goin hoooooooooome
```

REPEAT VERSE CHORDS:
They left you at the station
With your thoughts of immigration
You rode a loaded Greyhound through the night
Cryin like a loon as that Minnesota Moon shining bright
But now you re back again
And it looks like you found a friend
The two of us will be soaring like a kite

CHORUS
