Minnesota Moon
The Big Wu

Minnesota Moon

CHORUS:

```
                            A
Look who just walked in the door
                          B
We ve all seen your face before
                            D
It s time to settle up the score
                        E
Keep those promises you swore
                            A
Look who just walked in the door
```

VERSE:

```
          A
Well, you moved to Colorado

Thought the whole damn world would follow
                                          D
But your troubles were the only thing that did
     F#m
In a suitcase full of lonely
  E                                 D      D-C#-C-B
A longing for the good ol  times was here
B
But now you re back again

And it looks like you found a friend
                                   E
I just bought the bottle for your kid
```

CHORUS

REPEAT VERSE CHORDS:
You went and dropped the anchor
You were hired as a banker
And you got yourself a home up in the hills
But thunder on the prairie was the only remedy for your ills

But now you re back again
And it looks like you found a friend
My pocketbook is loaded to the gills

JAM JAM JAM (Just repeat Chorus progression)

End Jam w:

A B C C#

```
                                          C    C#
Driving through through the midnight rain
                                          C    C#
Driving through through the midnight rain

Driving through through the midnight rain
C#--C--C#--D
Raaaaaaaaaainnnnnnnn
                    A    B
Travelin ooooooon
     E
Goin hoooooooooome
```

REPEAT VERSE CHORDS:
They left you at the station
With your thoughts of immigration
You rode a loaded Greyhound through the night
Cryin like a loon as that Minnesota Moon shining bright
But now you re back again
And it looks like you found a friend
The two of us will be soaring like a kite

CHORUS
