Night On Earth
The Bouncing Souls

The verse,chorus, and bridge pattern is repeated so I only wrote it out once.
Goodluck and enjoy

```
A                E
Passed some time on the stoop
A                    D
on the block were we used to sit
A           E      C#m      D
I thought about it all too much
A            E    A          D
I thought so hard I couldn t see
A         E         A
Pete rode by on his Hutch

Passed some time on the stoop
on the block were we used to sit
I looked down and tied my shoes
I thought about it all too much
I looked up and then I knew

[Chorus:]
D
Woah oh oh oh oh oh
A
I guess these things were meant to be
D
Woah-oh-oh-oh-oh oh
A                           E
and there s no use fighting what s in me

A E C#m D
Night on earth [x2] (listen to the song figure out the timing here)

Passed some time walking around
Looking for something to be
When I stopped to look around
All the music was different to me

All these places we used to go
When I loved you I didn t see
I ll miss you but now I ll know
Better next time because I found me
