Album: The Soft Bulletin
Artist: The Flaming Lips

```
  Bb
Is that gash in your leg really why you have stopped
Cause I ve noticed all the others though they re gashed they re stiull going
        Eb
cause I feel like the real reason that you re quitting is that you re admitting
            Bb            G#              Bb
that you ve lost all the will to battle on

Chorus:
         Eb         F
Will the fight for sanity
       Dm            Gm
Be the fight of our lives
               Eb            F
Now that we ve lost all the reasons
       Dm               F
That we thought that we had

Verse:
          Bb
Still the battle that we re in rages on til the end
         F
With the explosions words are open sights and smells
                        Eb
eyes and noses, but the thought that went unspoken
                                                   Bb
was understanding that you re broken - still the last
      G#           Bb     G#
volunteer battles on,
        Bb      G#
battles on,
        Bb
battles on...
