Song: The Gash

Album: The Soft Bulletin
Artist: The Flaming Lips

```
  B
Is that gash in your leg really why you have stopped
Cause I ve noticed all the others though they re gashed they re stiull going
        E
cause I feel like the real reason that you re quitting is that you re admitting
            B            A              B
that you ve lost all the will to battle on

Chorus:
         E         F#
Will the fight for sanity
       Ebm            G#m
Be the fight of our lives
               E            F#
Now that we ve lost all the reasons
       Ebm               F#
That we thought that we had

Verse:
          B
Still the battle that we re in rages on til the end
         F#
With the explosions words are open sights and smells
                        E
eyes and noses, but the thought that went unspoken
                                                  B
was understanding that you re broken - still the last
      A           B     A
volunteer battles on,
        B      A
battles on,
        B
battles on...
