

Locust

A-Ha

The song is in 6/4 timing so the E chords tend to be played as shorter transitions

the

Bm and F#m chords. The formatting, not to mention grammar, keeps getting screwed up

I adjust

it so play around with the timings (and ignore the grammar).

verse 1:

Bm7 E F#m

Dont be afraid

E Bm7

its a harmless moon.

E F#m

All we can do

E Bm7

is to assume

E F#m

our lives must change,

E Bm7

a change is due.

E F#m

I hear you say

E

what are we gonna do?

chorus:

Bm E

I dont know breaking

F#m E

I dont know shaking

Bm E F#m

I dont know breaking down

E

When all you want do to do

Bm **E**
I dont know breaking

F#m **E**
I dont know shaking

Bm **E** **F#m** **C#m**
I dont know breaking down

verse 2 (chords as verse 1):

O weeping night, O grieving sky,
O rabbit wind, you just flew by,
Grant me this, some small reward
and dont announce time of the final call

(chorus)

(spoken verse - chords as for other verses I think)

My dream was this:

Across the sky
a slate-grey cloud
that filled the eye.

A slate-grey cloud
comes through the dust

Locust

(finish with chorus
