Gotta Get Away
The Offspring

I only know the chords for the intro and chorus right now
but im working on the main riff. I wrote to use G but i prefer G2
for a more rich acoustic sound personally.

Also This is what i am calling A5. i couldn t find another name for it.

```
  e---5------
  B---5------
  G---x------
  D---x------
  A---x------
  E---x------
```

```
                _
Intro: G/ D Em   \
                  x2
       G/ A5 Em _/
```

Chorus:

```
Em          G              D      Em                G
Sittin on a bed lyin wide awake. theres demons in my head and its
            D         Em               G                    D
more than i can take. Think i m gonna roll but i think its kinda weak.
Em          G                    D     Em      G          D      Em
Sayin all i know is i gotta get away from me. Gotta get away from me
```
