The Rolling Stones

(intro) **F#m D F#m D**

```
      F#m              D
As you poured out the drinks for me
           F#m               D
I felt your hooks sink right into me
     F#m                 D
And I knew you were my destiny
        F#m                  D
And I thought you d get the best of me
```

On the way down to Mexico
     F#m              D
As I danced in your rodeo
         F#m        D
You say poverty is picturesque
        F#m                  D
As you dragged your nails across my chest
```

        F#m            D
In the first flush of ecstacy
        F#m        D
As you lay naked next to me
           F#m           D
While our love put the dawn to flight
        F#m              D
I just ignore all those warning lights

                A
Cause when you laugh
        E
I just cry
          G
When you left
        D
I just died

        A  G    D
Are you already over me
        A  G    D
Are you already over me
        A  G    D
Are you already over me
        A  G    D
Are you already over me
           A          D  A
What a fool I ve been

C#       G
Hard to hold on
           D    G D
To a love divine
C#             G
I m kneeling in a corner
           D             G D
Praying to your shrine

F#m D F#m D

F#m D F#m D
```

```
           A
and I m so hurt
       E
So confused
           G
I ve been burned
           D
I ve been bruised

        A  G    D
Are you already over me
        A  G    D
Are you already over me
        A  G    D
Are you already sick of me
        A  G    D
Are you already over me
        A  G    D
Are you already over me
        A  G    D
Are you already tired of me
        A  G    D
Are you already over me
                 A      D
What a fool I ve been
                 A      D
What a fool I ve been
                  A
What a fool I ve been
