Cry To Me
The Rolling Stones

```
        E
When your baby leaves you all alone,
      A                     E
And nobody calls you on the phone.
                         B
Ah, don t you feel like crying?
                     E
Don t you feel like crying? Like crying? Like crying?
         B            E
Come on, baby, cry to me.

          E
When you re all alone in your lonely room,
            A                            E
And there s nothing but the smell of her perfume.
                         B
Ah, don t you feel like crying?
                     E
Don t you feel like crying? like crying? like crying?
         B                      E
Come on, baby, come on...cry to me.

(refrão)
A                                     E
Well, nothing could be sadder than a glass of wine, alone.
B                                                  E
Loneliness, loneliness, it s just a waste of your time.
A                                            E
You don t ever, you don t ever have to walk alone, you see.
    B                                         E
So, come on, take my hand..Come on, walk with me.

          E                                  A
When you re waiting for a voice to come, in the night,
                E
and there is no one..
                         B
Ah, don t you feel like crying?
                     E
Don t you feel like crying? Like crying? Like crying?
         B            E
Come on, baby, cry to me.
