Cant Seem To Make You Mine
The Seeds

```
C               G        Am
I can t seem to make you mine
I can t seem to make you mine
You fly around like a bee
Hurtin  everything you see
I try everything I know
To make you wanna love me so
The only thing you do
Is try to put the hurt on me

F                          C
Can t you see what you re doin  to me
F                       C
You fill my heart with misery
F                       C
In every breath and step I take
G (Break)                 G
I m more in love with you
```

It continues with these chords through the whole song.
On the keyboardsolo you just play the verse.
